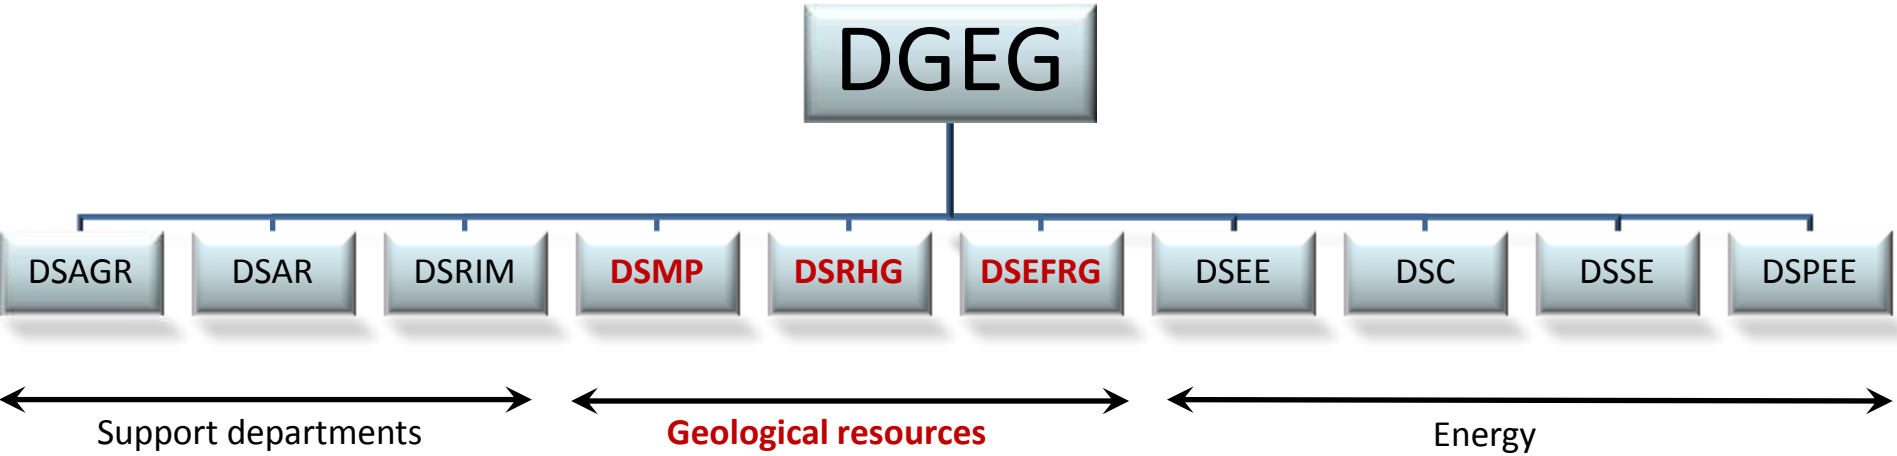
DGEG – Direção Geral de Energia e Geologia

Direcção-Geral
de Energia e Geologia

Direcção-Geral
de Energia e Geologia

Directorate General for Energy and Geology



DGEG is a governmental body, referred to as Portuguese Mining Authority.

Mission is to contribute to the design, promotion and evaluation of geological resources and energy policies in a perspective of sustainable development and ensuring the security of supply.

DGEG has a proactive management team, a body of dedicated mining engineers and geologists among other professions and has good facilities and infrastructures.

Why submmit proposals to H2020?

Access to new networks and alliances – raising the profile of scope of intervention at an international project, **sharing expertise and access to equipment, data and facilities in partner countries**.

Opportunities to **tackle global challenges together**.

Opportunity to **achieve an overview of the geological resources policies, strategies and good practices**.

Opportunity to **find solutions and share experiences** on specific issues relevant to Portugal **which may lead to the capture of investment** for the prospection and exploration and exploitation.

Direcção-Geral
de Energia e Geologia

Advantages of having DGEG in the consortium…

DGEG is the national mining authority. DGEG has an **important role, scope and position on the definition of the geological resources policy**.

DGEG has an **overview of the Portuguese geological resources supply/demand**, and an **important set of historical and statistical data**.

DGEG represents the Portuguese Member State, which is located in the southern Europe, with specific characteristics and **great potential on mining (VMS), with focus on the world-class mineral deposits (Cu, Zn, Pb, W, Sn etc…)**.

Portugal is a **relevant partner on the policy of mineral resources in the EU** and may develop complementary activities connecting networking and coordination between programs in different countries.

DGEG may contribute to **develop standardization, dissemination, awareness raising and communication, policy dialogues, studies and mutual learning exercises**.

New call 2016/2017, New oportunities!

Topics of interest for DGEG

SC5-15-2016/2017: Raw materials policy support actions

- SC5-15a-2016: **Expert network on Critical Raw Materials**
- SC5-15c-2017: **Optimising collection of raw materials data in Member States**
- SC5-15d-2017: **Linking land use planning policies to national mineral policies**
