Searching for partnership opportunities?

HEALTH CLUSTER PORTUGAL: FROM KNOWLEDGE TO MARKET

The Health Cluster Portugal (HCP)
(www.healthportugal.com)

is a private non-profit association that currently brings together over 170 members, including R&D institutions, universities, hospitals, organisations from civil society, and companies in the areas of pharmaceuticals, biotechnology, medical technologies, and services. Together, these organisations develop innovative projects in areas such as translational and clinical research, active and healthy ageing, health tourism, and eHealth, with the purpose of turning knowledge into new solutions that contribute to the improvement of human health.

And also together, HCP members work to make Portugal the right place to invest and build partnerships in Health.

Information about HCP members at
www.healthportugal-directory.com

172 Members

A new entry point for R&D services and clinical trials in Portugal:

TRIS-HCP | Translational and Clinical Research Infrastructures Specialisation Platform – Health Cluster Portugal

Excellent science and state-of-the-art infrastructures for more competitive companies and better healthcare.

TRIS-HCP is a virtual organisational system within the Health Cluster Portugal (**HCP**) that brings together many of the most prominent Portuguese R&D institutions, hospitals and academic medical centres, and their respective facilities, resources, services and expertise in the areas of translational and clinical research, making them more accessible to other researchers and companies. **TRIS-HCP** is integrated in the Portuguese Roadmap of Research Infrastructures 2014-2020.

Mission

- Foster excellent research and innovation in translational and clinical sciences.
- Contribute to strengthen the competitiveness of health industries.
- Connect Academia and Industry, to work together on tackling societal challenges.

How can TRIS-HCP assist you? ARE YOU...
