

AGÊNCIA NACIONAL
DE INOVAÇÃO

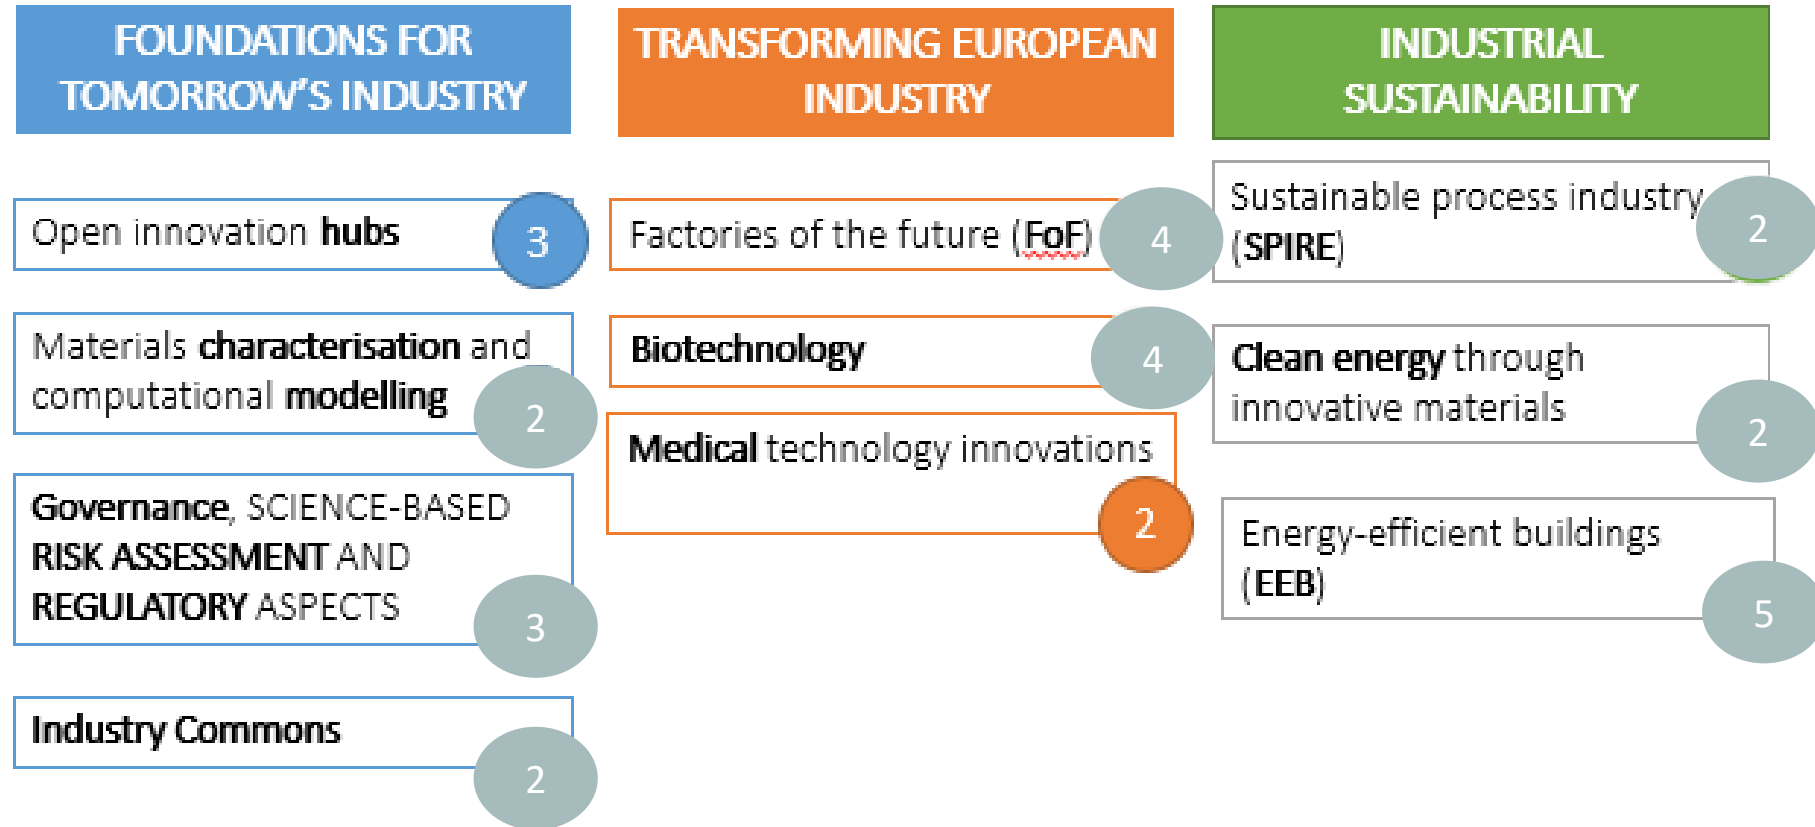

PILAR II

**NMP – NANOTECHNOLOGIES,
ADVANCED MATERIALS, ADVANCED
MANUFACTURING AND PROCESSING**

WORK PROGRAMME NMBP 2020

Nanotechnology, Advanced Materials, Biotechnology, Processes

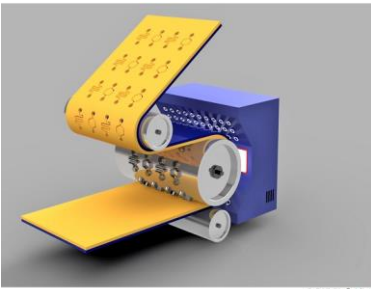

duplicar a Presença Portuguesa nos Programas Europeus

Nano-enhanced industrial materials: Building the next European industrial revolution

R2R Biofluidics

Using roll-to-roll processing to manufacture microfluidics for lab-on-a-chip devices

NanoPilot

Production scale-up drives nanomedicines to market

PEPTICAPS

Nano-capsules: a smarter solution to skin care

FAST

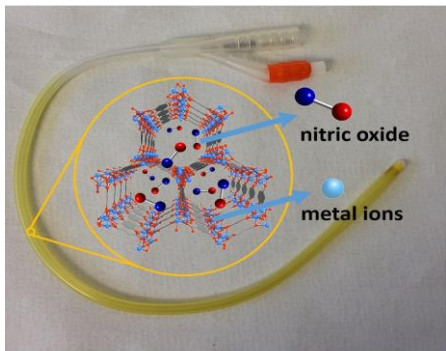

Hybrid 3D printing produces scaffolds for bone regeneration

NANOFACTURING

Connecting Europe's nanomedicine supply chain

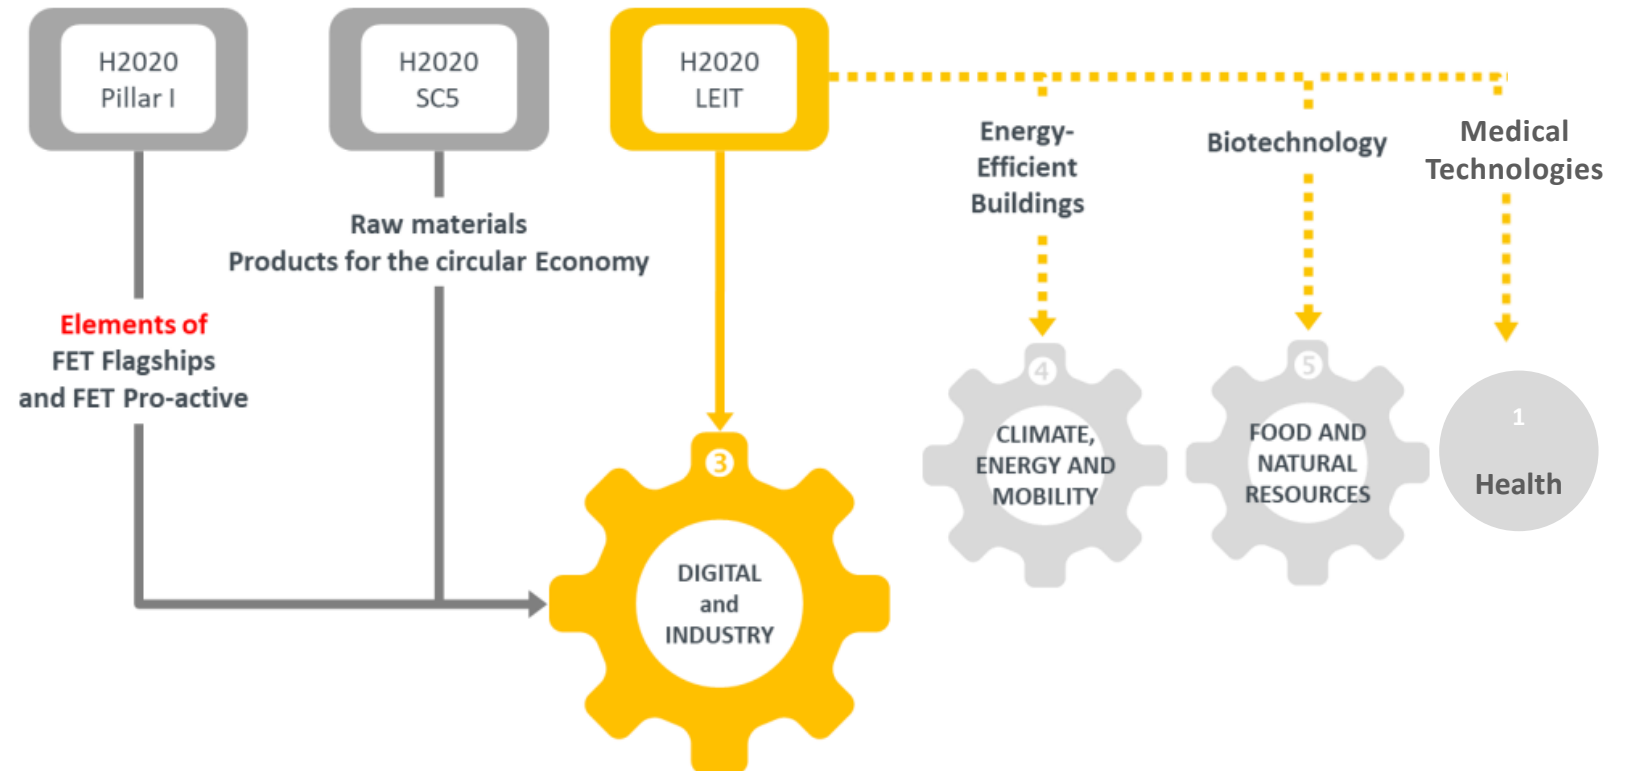

ProDIA

Demonstrating the industrial relevance of hybrid nanoporous materials

Cluster “Digital and Industry”

CLUSTER 3 - What moves in/out

AGÊNCIA NACIONAL
DE INOVAÇÃO

Marta Candeias

National Delegate & NCP do H2020
Nanotechnology, Advanced Materials, Advanced
Manufacturing and Processing | Factories of the Future |
Energy Efficient Buildings | Sustainable Process
Industries | European Innovation Council | Artificial
Intelligence
