

# BATTERY 2030

## Portuguese Summit on Battery 2030@INL | MAY 31<sup>ST</sup>

*"Europe is focused on implementing a concerted strategy for securing strategic technologies for the energy transition towards a low-carbon and circular economy."*

The [Battery 2030+](#) initiative will foster an innovative and collaborative community among researchers and industry leaders focusing initially on [four main Research Areas](#). Portugal with its unique potential for creating an industry oriented value chain focused on the production of lithium batteries make us prime players for the European strategy.

*Let's embrace this challenge and build the next generation of batteries together!*

### AGENDA

**Scope:** European Battery Strategy & Portuguese Capacities along the Lithium Batteries Value Chain

**Morning Session | Moderator:** Jorge Fiens, CCM Manager, INL

#### 10:30 Opening

**Lars Montelius**, International Iberian Nanotechnology Laboratory (INL) Director-General  
**João Galamba**, Secretary of State of Energy of Portugal

#### 11:00 "The Portuguese Research Landscape in Batteries"

**Helena Pereira**, Portuguese Foundation for Science and Technology (FCT) President

#### 11:20 "Battery 2030+"
