

# Horizon Europe

## Pilar 3 – Opportunities for Enterprises

10<sup>th</sup> February 2021

[Registration link HERE](#)

Innovation will be supported across the board throughout the HE programme, but it is in the third pillar that activities for creating new markets and support for SMEs with cutting-edge and disruptive innovation potential are concentrated through the creation of the European Innovation Council (EIC). The EIC will enhance the European innovation ecosystem and function as a one-stop-shop for innovators with great potential. It will have 3 main programs:

- European Innovation Council (EIC)
- European Innovation Ecosystems
- The European Institute of Innovation and Technology (EIT)
