

THE PORTUGUESE BIOECONOMY LANDSCAPE

BRUNO SOMMER FERREIRA

Bio-based Industries Public-Private Partnership – Portuguese Stakeholder Event

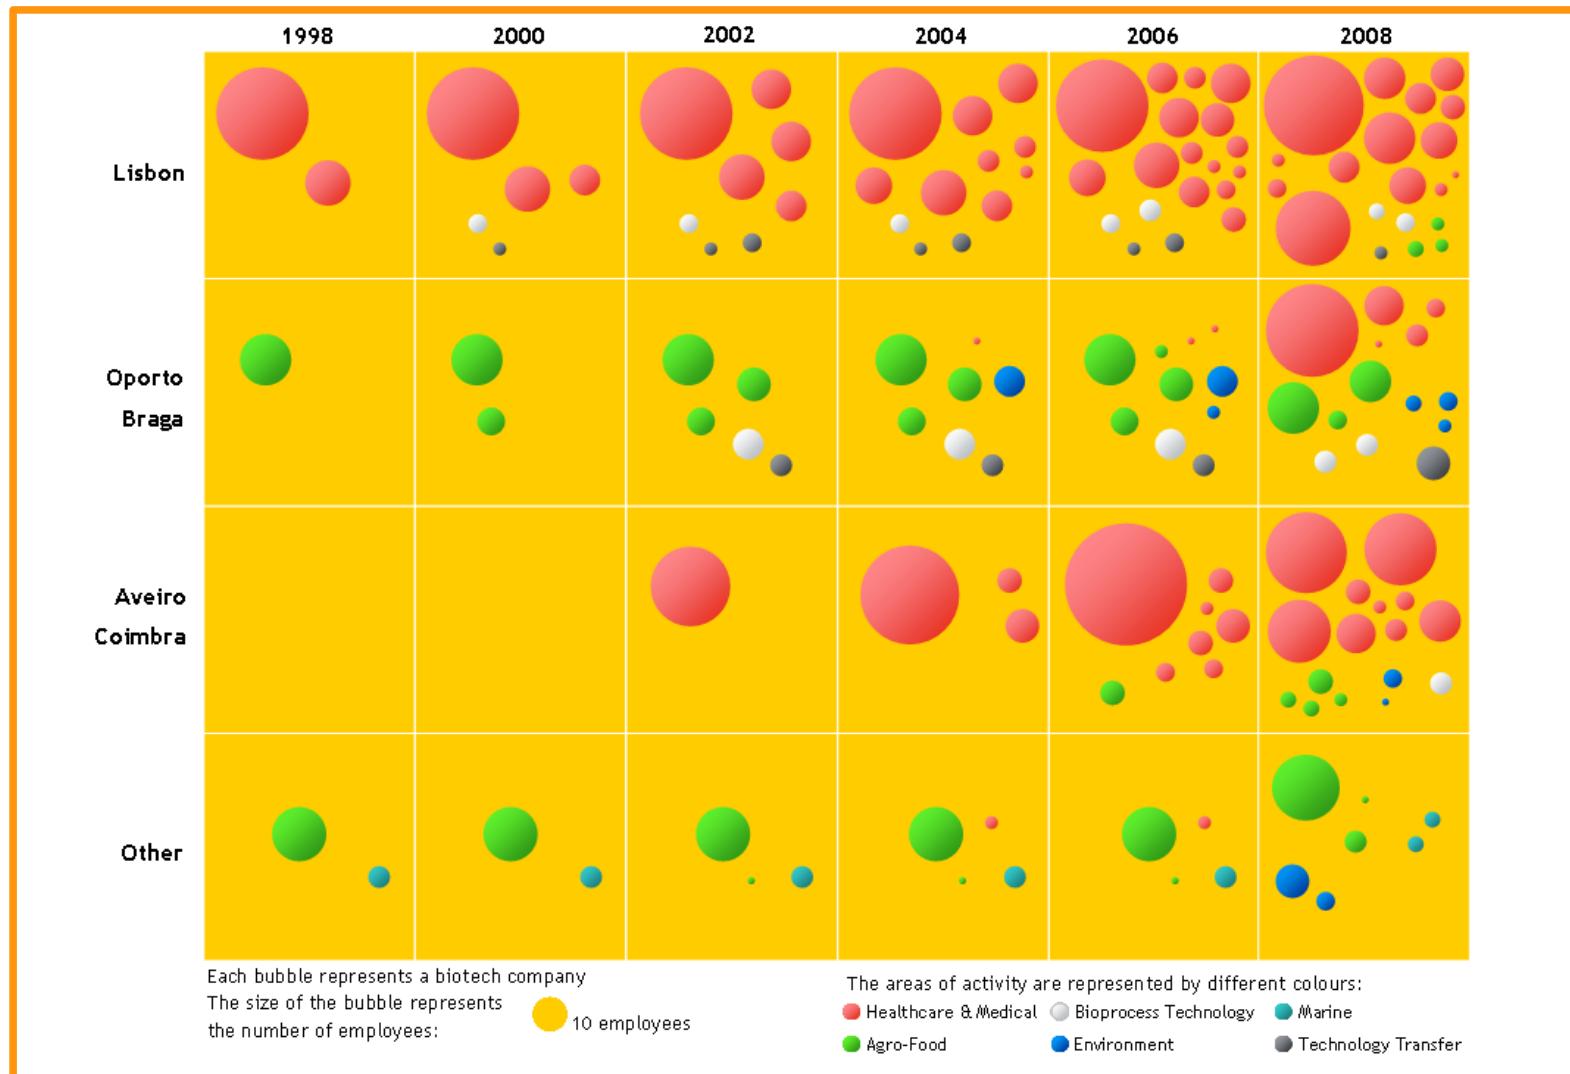

Lisboa – 18th December 2013

OUTLINE

- P-Bio
- Biotrend and Silicolife
- Bioeconomy requirements
- Portuguese (current) assets
 - Knowledge-base
 - Raw material availability
 - Infrastructure

- P-Bio was founded in 1999
- Currently has more than 30 members, representing more than 50% of biotech companies
- Promote the networking and synergies between biotech companies operating in Portugal
- Improve awareness of biotechnology
- Promote the adoption of national policies which foster the development of the biotech sector
- www.apbio.pt

- Bioprocess development company founded 2000
ist spin-off
- Specialized in industrial biotechnology
- Runs a state-of-the-art facility for development, optimization and scale-up of bioprocesses

- Service provider in bioprocess development
- Development of new technologies
- Keeps at the forefront of scientific development
 - Seven on-going FP7 projects in the bioeconomy space

www.biotrend.biz

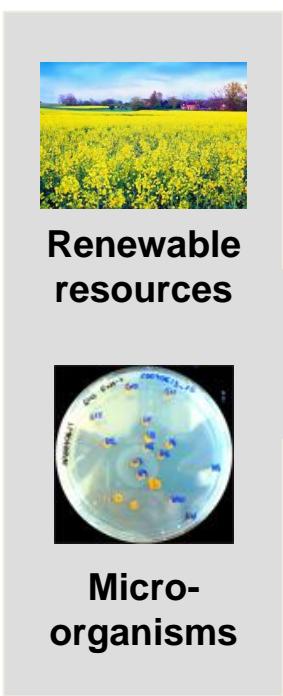

- Founded in 2010
- *In silico* rational design of microbial cells
- Serves leading chemical, materials and synthetic biology companies
- Based on world-class science and technology
- Participates in one FP7 project and in two ERA-IB projects

Universidade do Minho

REQUIREMENTS FOR THE BIOECONOMY

A plethora of products:

Food additives

Biopolymers

Fuels & Chemicals

And more, much more...

- Knowledge base
- Raw materials
- Infrastructure

REQUIREMENTS FOR THE BIOECONOMY

Knowledge base

- Plant improvement
- Microbial strain improvement
- Biocatalyst optimization
- Bioprocess engineering

Raw materials

- Availability
- Logistic of supply

Infrastructure

- Research
- Demonstration
- Biomass production
- Processing

PORTUGAL: Knowledge-base

- Education and research
- Exponential growth of PhD's in biotech topics [about 20% of total]
- International cooperation [ex. EU, US, Brazil]

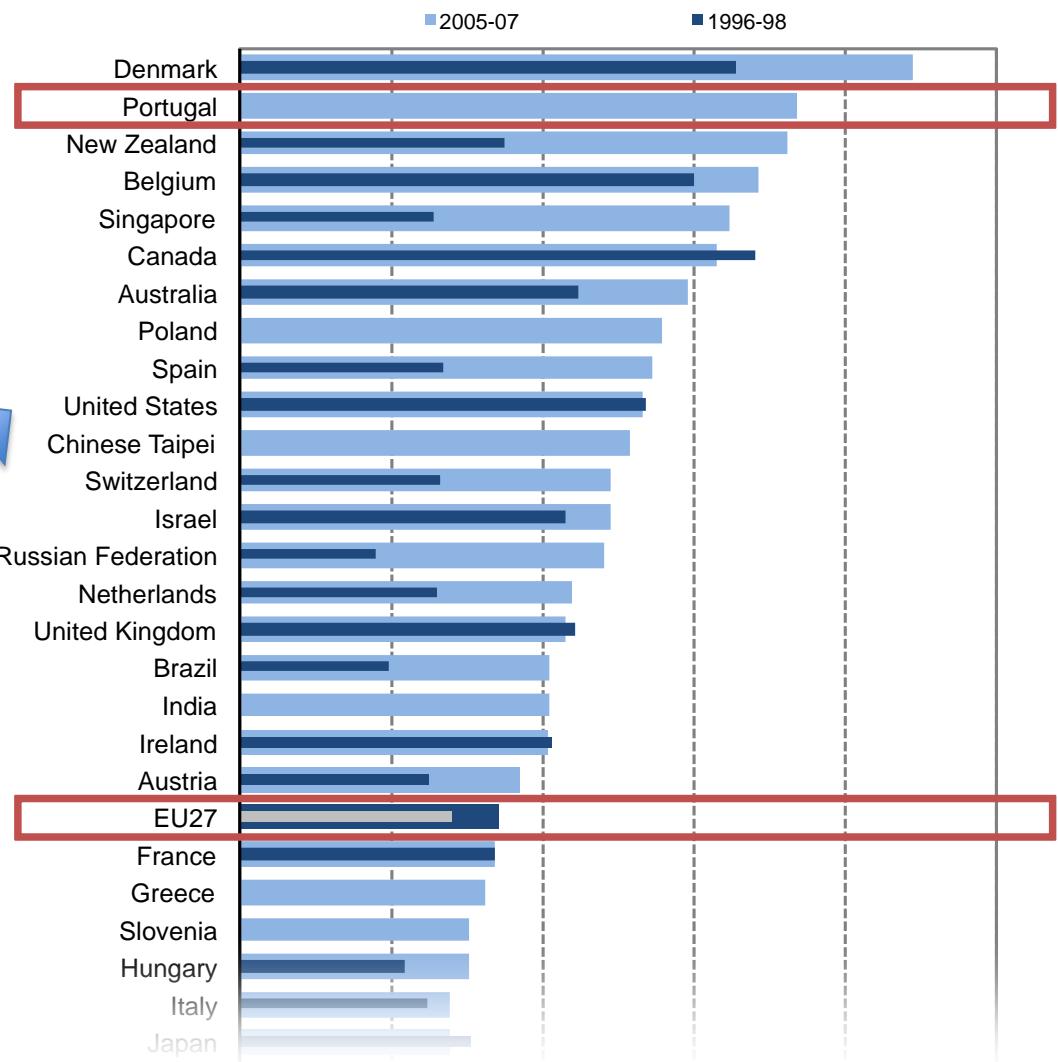

PORUGAL: Knowledge-base

KBI 12. Revealed technological advantage in biotechnology, 1996-98 and 2005-07

- Ratio of biotech publications vs. total publications in Portugal above EU average
- Patents, impressive development!

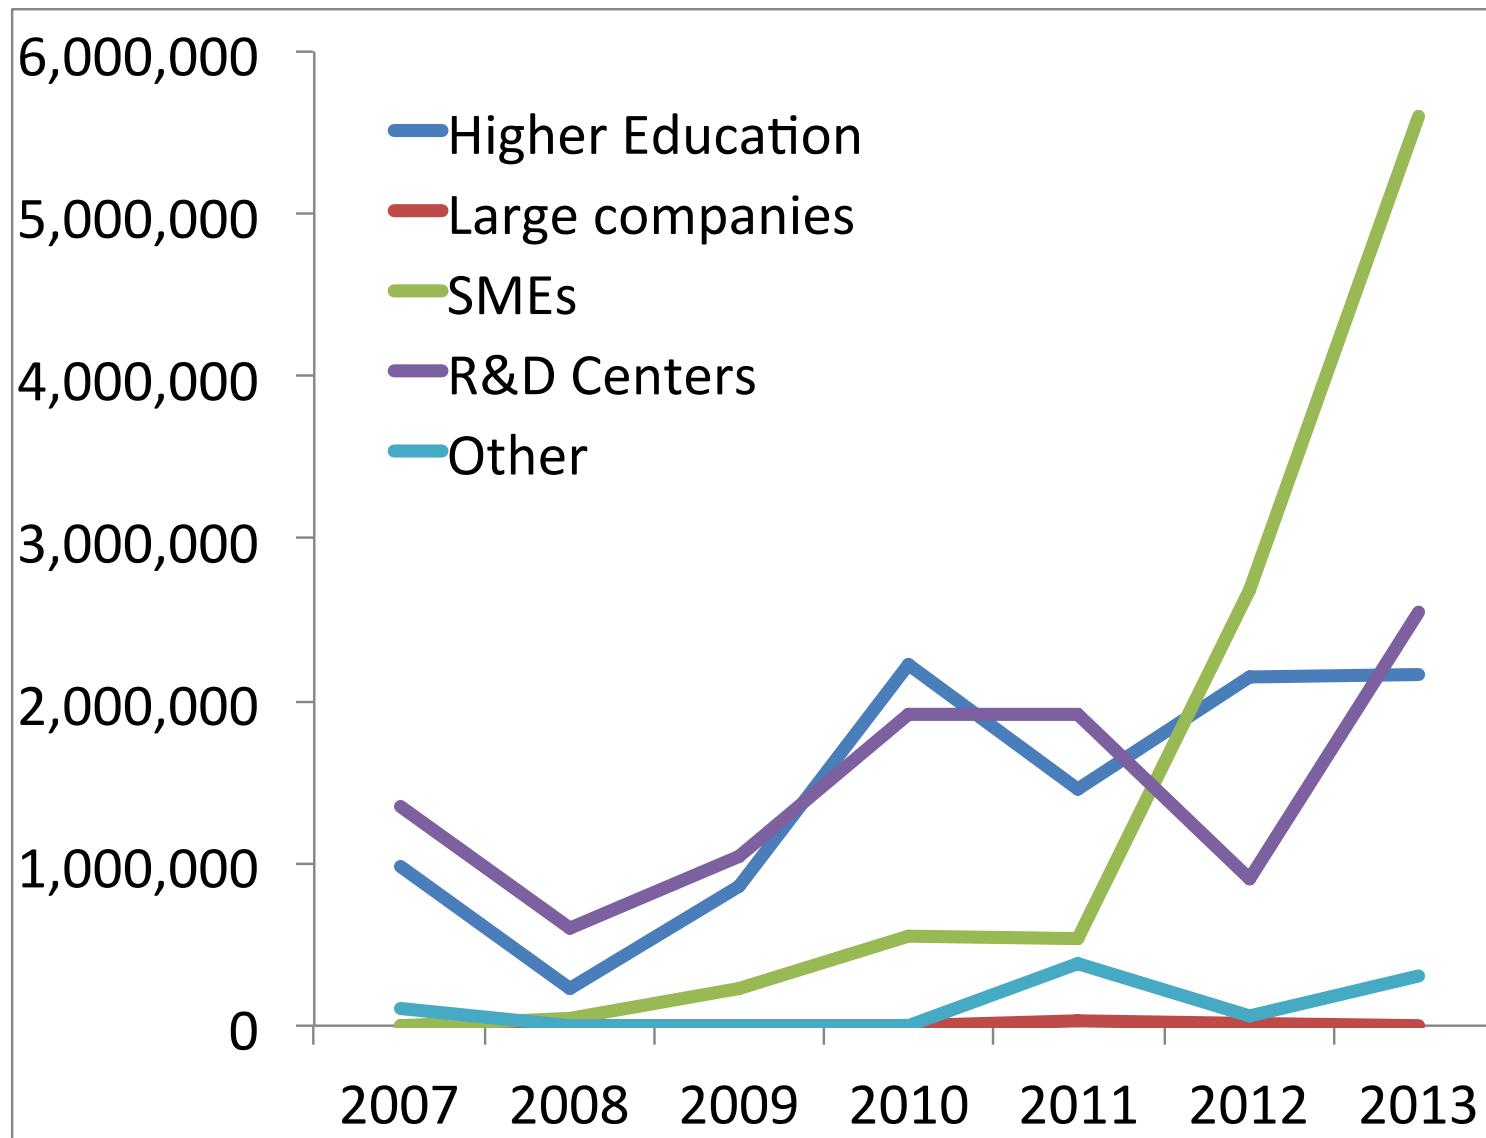

PORTUGAL: Participation in EU projects

- Statistics of **KBBE** projects
- Proposals: 2943 total EU 568 with PT
- Approved: 507 total EU 107 with PT
- Success rate: 17.2% total EU 18.8% with PT

Financing to PT entities	Higher education	10 056 215 €	✓
	Large companies	41 919 €	!!!
	SMEs	9 660 288 €	✓
	Research centers	10 265 041 €	✓
	Others	855 121 €	
	TOTAL	30 878 584 €	

PORTUGAL: Participation in EU projects

PORTUGAL: Lignocellulosic raw-material

Forest occupies 39% of Portuguese territory

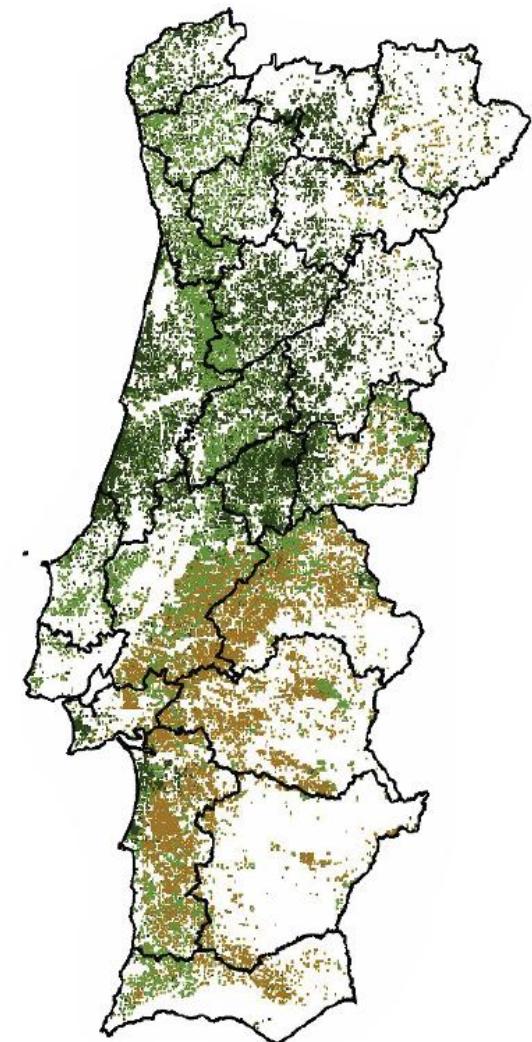

Accounts for ~6% of Portuguese exports

Species:

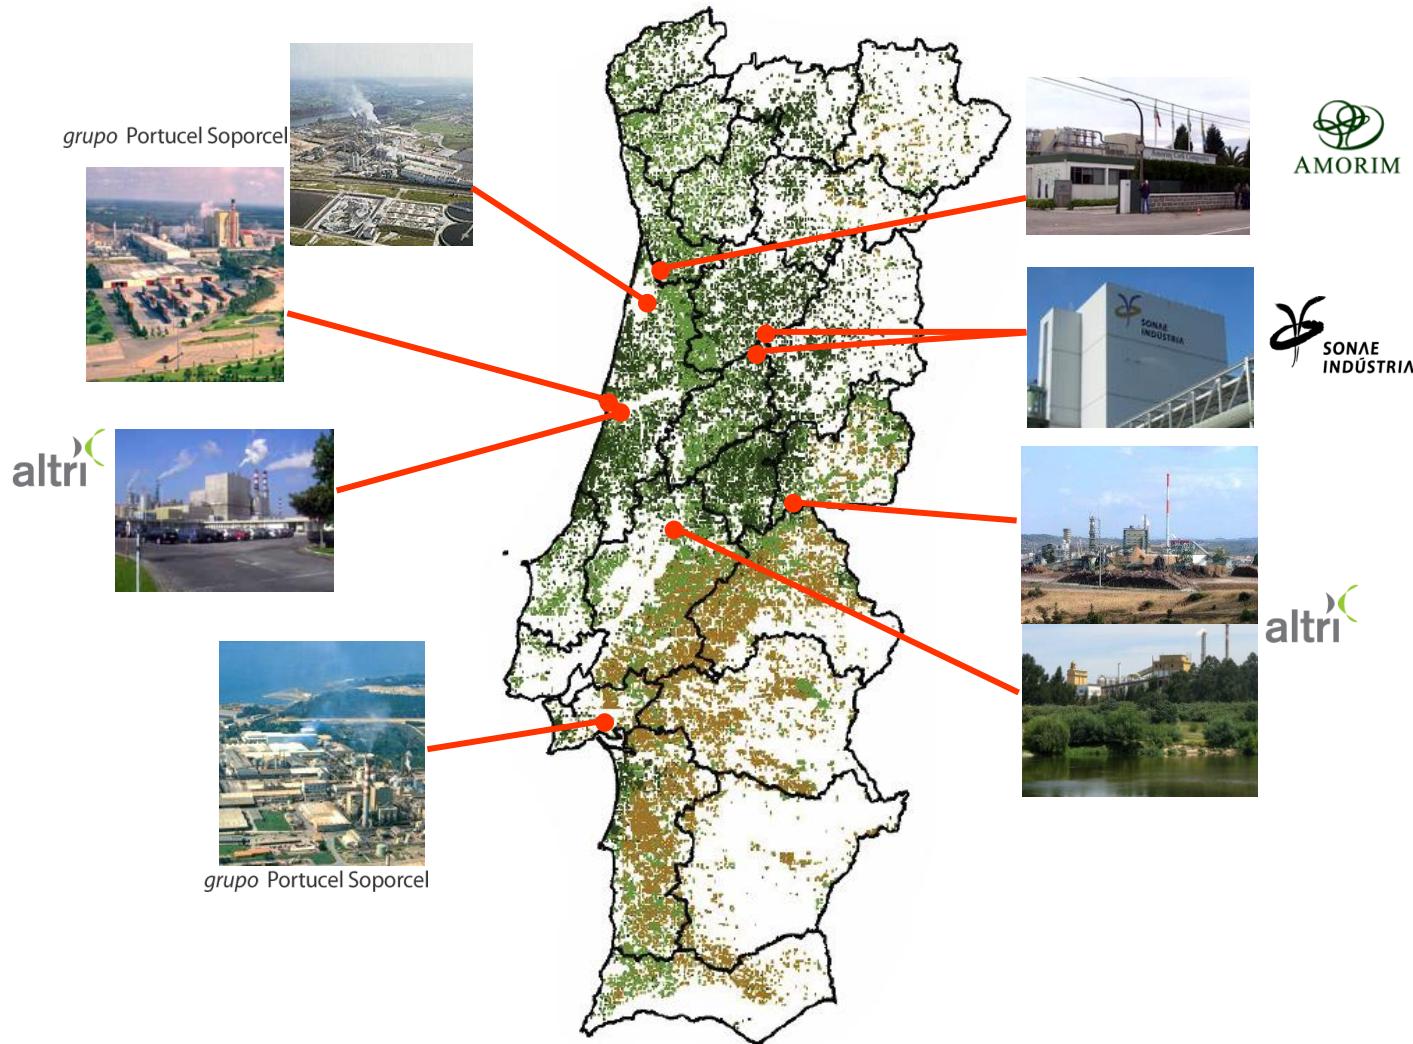

- Pine, 28%
- Eucalyptus 23%
- Cork 23%

Products:

- Pulp and paper 
grupo Portucel Soporcel
- Cork and derivatives 
- Wood panels 
- Furniture  An industrial group within 

PORUGAL: Established biorefining capacity and supply chains

PORTUGAL: Examples of available residues

Lignocellulosic residues and by-products

- agriculture
- forestry

Cheese whey

Glycerol

by-product of biodiesel

Wastewater sludge

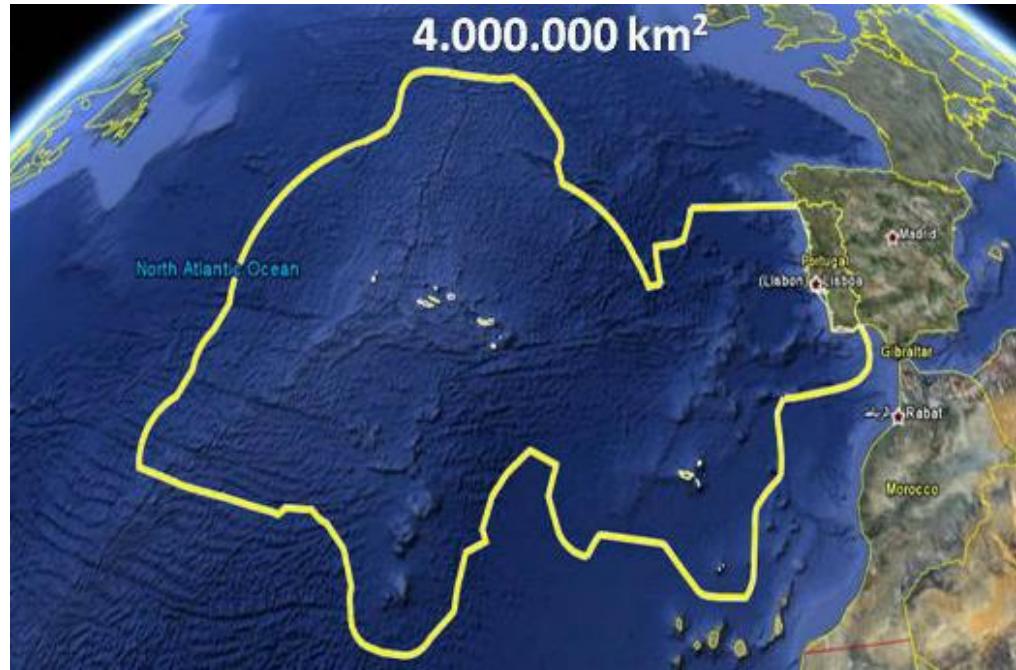

PORTUGAL: A sea of opportunities

Possible extension in the
Portuguese Continental Shelf

40x surface of continental
Portugal

Huge diversity of ecosystems

Untapped biodiversity and
potential new bioactivities

PORTUGAL: Coverage of the value chain

Renewable
raw material

Biocatalyst

Process

Product

Portucel Soporcel

SILICOLIFE
Computational Biology Solutions for the Life Sciences

PORTUGAL: Infrastructure in place

- Raw-material

- Genomics, systems biology

- Process development

- Demonstration scale

Up to 100 m³
