European Research Council (ERC): Challenges and Opportunities

Juliana Monteiro

HORIZON 2020

Three pillars

Excellent
Science

Industrial
Leadership

Societal
Challenges

Reinforcing and extending the excellence of the EU's science base and consolidating ERA to make EU's R&I system more competitive on a global scale

ERC - After 7 years of existence... A success story

- ✓ **Highly recognized by the research community**
- ✓ **Over 4 500 top researchers funded** (65% are at an early career stage)
- ✓ **64 nationalities represented**
- ✓ **Working in ~600 different institutions in 29 countries**
(although 50% grants in 50 institutions)

ERC - After 7 years of existence... A success story

- ✓ Growing number of articles in scientific journals and prizes
- ✓ Highly competitive (average success rate 12%)
- ✓ Efficient and fast grant management
- ✓ ~~Eight~~ Eleven Nobel Prize Laureates

Starting Grants
(2-7 years after PhD)
up to € 2.0 Mio
for 5 years

Consolidator Grants
(7-12 years after PhD)
up to € 2.75 Mio
for 5 years

Advanced Grants
track-record of
significant research
achievements in
the last 10 years
up to € 3.5 Mio
for 5 years

General aspects

The PI may be of any age and nationality and may reside in any country in the world at the time of the application

Research must be conducted in a public or private research organization (Host Institution/HI) **located in one of the EU Member States or Associate Countries**

Portability: It is expected that the PI establishes and concludes the funded research project in association with the original host. However, the ERC grants allow PIs to transfer their projects from one host to another in the course of the project.

Research teams are headed by a **single Principal Investigator (PI)** + additional team members (6 members average) - it is neither a network, nor a 'research consortium'

What kind of research can be funded?

Any field of research with particular emphasis on the frontiers of science, scholarship and engineering

ERC encourages:

- Proposals of an interdisciplinary nature which cross the boundaries between different fields of research
- Pioneering proposals addressing new and emerging fields of research
- Proposals introducing unconventional, innovative approaches and scientific inventions

Research with a high-gain/high-risk profile

If successful, the payoffs will be very significant, but there is a higher-than-normal risk that the research project does not entirely fulfil its aims

*Evaluators will pay particular attention to the **ground-breaking** nature of the research project and the **feasibility** of the outlined scientific approach*

Starting and Consolidator Grants

Starting Grant	Consolidator Grant
The PI must have been awarded his/her first PhD at least 2 and up to 7 years prior to the publication date of the call for proposals	The PI must have been awarded his/her first PhD at least 7 and up to 12 years prior to the publication date of the call for proposals
Extensions to this period may be allowed in case of eligible career breaks*	
Up to € 1.5 million (in some circumstances up to € 2 million) (100% direct costs + 25% indirect costs)	up to € 2 million (in some circumstances up to € 2.75 million) (100% direct costs + 25% indirect costs)
Duration: up to 5 years	
PIs expected to spend a minimum 50% of their total working time on the ERC project and a minimum of 50% of their total working time in an EU Member State or Associated Country	

- *Maternity* (18 months for each child born before or after the PhD award);
- *Paternity* (documented amount of paternity leave actually taken for each child born before or after the PhD award);
- *Long-term illness, clinical training or national service* (the effective elapsed time since the award of the first PhD documented of leave actually taken by the PI for each incident which occurred after the PhD)

What makes a competitive candidate?

Competitive Starting Grant

Must have already shown the potential for research independence and evidence of maturity. e.g.: **at least one** important publication without the participation of their PhD supervisor

Competitive Consolidator Grant

Must have already shown research independence and evidence of maturity. e.g.: **several** important publications without the participation of their PhD supervisor

Promising **track-record of early achievements** appropriate to their research field and career stage.

e.g.: significant publications (main author) in major international peer-reviewed multidisciplinary scientific journals, or in the leading international peer-reviewed journals of their respective field; invited presentations in well-established international conferences, granted patents, awards, prizes etc.

“Applicants are encouraged to evaluate their track-record and leadership potential against the above-mentioned benchmarks that have been adopted by the Scientific Council, in order to decide for themselves their likelihood for success, thus avoiding to invest effort in proposals that are very unlikely to succeed.”

Advanced Grant

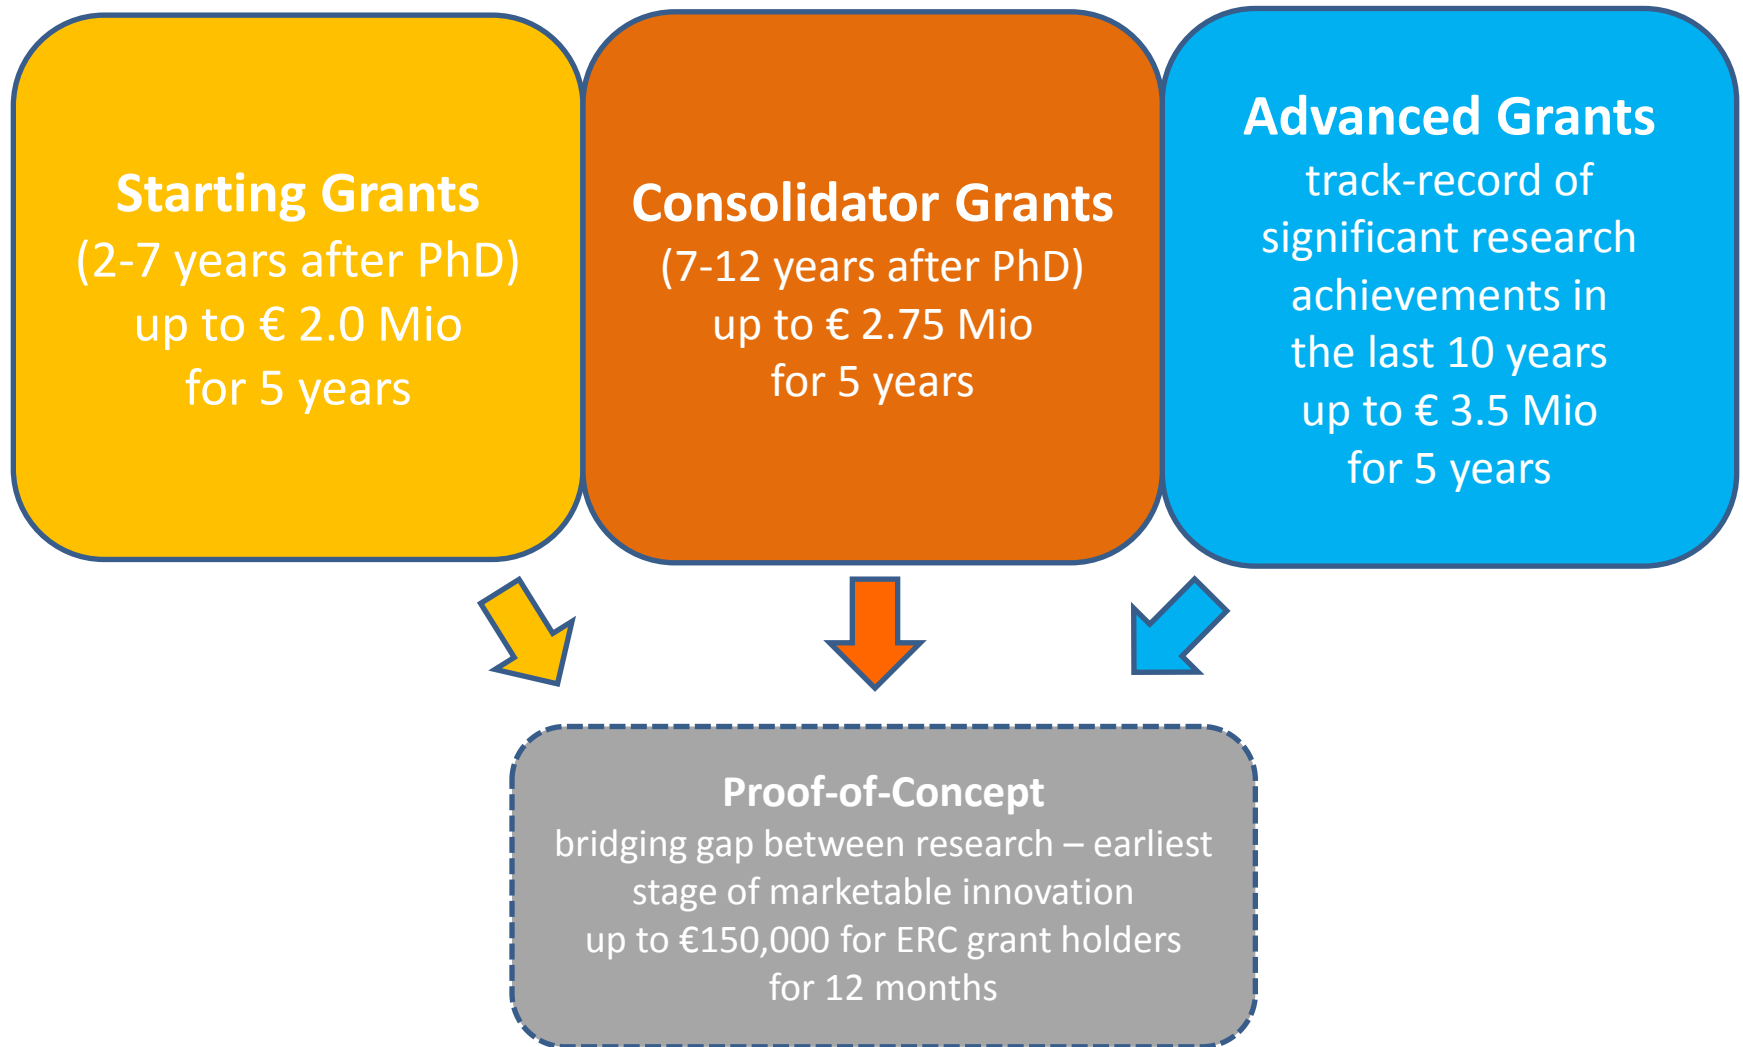

Applicants must be **scientifically independent** and have a recent research track-record and profile which identifies them as **leaders in their respective field(s) of research**

up to € 2.5 million per grant
(in some circumstances up to € 3.5 million per grant)
(100% direct costs + 25% indirect costs)

Duration: up to 5 years

PIs expected to spend a minimum **30%** of their total working time on the ERC project and a minimum of **50%** of their total working time in an EU Member State or Associated Country

ERC - Grant schemes

Main calls from the 2015 budget (indicative)

	<i>Starting Grant</i>	<i>Consolidator Grant</i>	<i>Advanced Grant</i>	<i>Proof of Concept Grant</i>
<i>Call identifier</i>	ERC-2015-StG	ERC-2015-CoG	ERC-2015-AdG	ERC-2015-PoC
<i>Call Opens</i>	7 October 2014	13 November 2014	10 February 2015	7 November 2014
<i>Deadline(s)</i>	3 February 2015	12 March 2015	2 June 2015	5 February 2015 28 May 2015 1 October 2015
<i>Budget million EUR (estimated number of grants)</i>	430 (330)	585 (330)	630 (280)	20 (130)
<i>Planned dates to inform applicants</i>	7 July 2015 12 November 2015	6 August 2015 20 January 2016	18 November 2015 16 March 2016	1 May 2015 1 October 2015

Restrictions on submission

- PIs may submit proposals to different ERC grant calls under the same WP, but only the first eligible proposal will be evaluated;
- A PI whose proposal was evaluated as **category C** in the StG, CoG or AdG calls for proposals under WP 2014 may not submit a proposal WP 2015 and 2016;
- A PI whose proposal was evaluated as **category B** in the StG, CoG or AdG calls for proposals under WP 2014 may not submit a proposal WP 2015;
- A researcher may participate as PI or Co-PI in only one ERC frontier research project at any one time;
- The PI of an ERC project may not submit a proposal for another ERC grant, unless the existing project ends no more than two years after the call deadline;
- A PI who is Panel Member for a 2015 ERC call or who served as a Panel Member for a 2013 ERC call may not apply to a 2015 ERC call for the same type of grant.

If you are thinking about applying...

Assess which is the best time for you to apply: have in mind the resubmission rules

Read carefully the Work Programme and Information for Applicants (former Guide for Applicants)
